DB/DYNAM $^{©}$

Product Description **Mainframe Utility**

DB/DYNAM, offered as an individual add-on product or as a part of EXtended Processing Option (XPO), enhances the CA-IDMS® system environment. It allows users to gain greater control over their processing by having a facility to dynamically allocate, close and de-allocate database files. It further enhances CA-IDMS environments with DB/DUPLEX© by providing the same dynamic features, and the mechanism to start queuing and resynchronizing a duplex database so the users can operate continuously while the backup of the database is taken.

Current Level: Release 5.1

Type of License: CPU/SITE

Installation: User, 30 Day Trial

Highlights

- Operates as an independent CA-IDMS/DC task

- Simple and easy to use syntax

- Supports BDAM and VSAM database files

- Fully integrated with DB/DUPLEX

Technical Information

Deliverables: Pre-assembled BAL programs, pre-defined DC messages, sample installation and documentations.

Operating Environment:

Hardware: This product is designed to operate on all IBM S/370™, S/390™, zSeries™ or plug compatible machines.

Software: DB/DYNAM operates in MVS™, OS/390™ and z/OS™ environments. It is compatible with CA-IDMS Release 15.x.
